ADP Workforce Now®
Connector for
Microsoft D365FO

Human Resource Data

Integrate employee demographics, hire to retire information between two systems, allowing user to reduce the hassle of entering data into both systems.

Finances

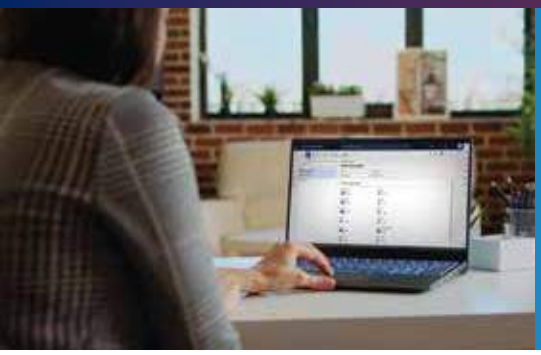

Ledger report from ADP can be directly imported into Dynamics 365, making finances more manageable and available in both systems when needed.

Applicant On-boarding

Reduced dependency.
Now you can hire employee in either of the systems and sync with the other.

Timesheet

Our solution offers customizable mapping options to align timesheet data-set between D365FO and ADP Workforce Now according to your organization's specific requirements.

Integrate ADP Workforce Now® with Dynamics 365 FO to comprise mass data with businessmanagement methods

IT'S WHY WE WORK TOGETHER

Guru Group provides Integration for **ADP Workforce Now®**, a leading human capital management (HCM) platform, with **Microsoft Dynamics 365 Finance and Operations**

Organizations leverage the power of **ADP Workforce Now®** by using it with **Dynamics 365** - a leading ERP, in order manage their businesses more strategically and effectively. This integration allows organizations to fetch from the strengths of both systems and achieve:

- **Optimum Usability:** Use strengths of both systems without incorporating much manual effort.
- **Greater insight:** Real-time visibility of financial and HR transactions for faster and informed decision-making.
- **Efficiency:** Once users input employee information, it is automatically updated in both systems (with some limitations).
- **Peace-of-mind:** Proprietary integration technology provides secure, encrypted, two-way data access between applications.

ADP & D365 Integration covers:

- Bi directional employee's data sync
- Employment details such as hiring, position assignments, position hierarchy, job details and termination
- Journal entries from ADP to D365
